* Equity related Securities shall mean equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies.

Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of 12 (twelve) months.

Pending deployment of funds, the scheme may invest the funds in short-term money market instruments or other liquid instruments or both. After three years of the date of allotment of the units, the Mutual Fund may hold upto twenty per cent of the net assets of the Scheme in short-term money market instruments and other liquid instruments to enable redemption of investment of those unit holders who would seek to tender the units for repurchase.

The Scheme will strive to invest its funds in the manner stated above within a period of six months from the date of closure of the NFO. However, in exceptional circumstances, this requirement may be dispensed with by the Scheme in order that the interest of the investors is protected.

INVESTMENT STRATEGIES & RISK MITIGATION FACTORS

Investment Strategies

1. Mahindra Liquid Fund

To achieve the investment objective of the Scheme, the Fund shall be managed to generate reasonable returns commensurate with low risk. The Scheme is positioned at the lowest level of risk-return matrix, which will be the guiding line to make suitable investments with low risk. The Scheme will invest predominantly in money market securities with some allocation towards other debt securities to enhance the portfolio return. The portfolio, for managing the liquidity will be structured using the matrix of asset liability management whereby maturity of the assets will seek to align with historical observed trends of liabilities. The Scheme will seek to generate reasonable return along with maintaining liquidity with the help of cash and cash equivalent instruments.

The fund manager will seek to play out the yield curve and exploit anomalies if any in portfolio construction after analysing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.

The investment team of the AMC will, as a mitigation and risk control procedure, carry out rigorous credit evaluation of the issuer company proposed to be invested in. The credit evaluation will analyse the operating environment of the issuer, the sector analysis, business model, management, governance practices, quality of the financials, the past track record as well as the future prospects of the issuer and the financial health of the issuer. Please refer SID for detailed investment strategy.

2. Mahindra Mutual Fund Kar Bachat Yojana

The fund manager will follow an active management style. The Scheme will focus on creating an appropriate diversified portfolio of companies with a long term perspective. The Scheme will follow a top down approach to select sectors and follow a bottom up approach to pick stocks across the sectors based on the growth and value opportunities available across sectors and stocks.

The Scheme by utilizing a holistic risk management strategy will endeavour to manage risks associated with investing in equity markets. The Scheme has identified the following risks and designed risk management strategies, which are embedded in the investment process to manage these risks:

- Quality risk – Risk of investing in unsustainable/weak companies
- Price risk - Risk of overpaying for a company
- Liquidity risk- High impact cost of entry and exit
- Volatility risk –Volatility in price due to company or portfolio specific factors
- Event risk - Price risk due to a company/sector specific or market event

Please refer SID for detailed investment strategy.

3. Mahindra Low Duration Bachat Yojana

In terms of the risk-return profile of the Scheme, the Scheme is positioned above the liquid fund but lower than the short term fund. Hence the portfolio strategy will seek to generate return by having a marginally higher maturity and moderately higher credit risk. The Scheme shall however maintain balance between safety and liquidity.

The fund manager will seek to play out the yield curve and exploit anomalies if any in portfolio construction after analysing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets.

The Scheme will seek to generate higher returns than liquid fund, hence will tactically invest / exit in higher maturity instruments, which will have a mark to market impact on the Scheme, thereby making it moderately more volatile than the liquid fund. The initiation of the tactical allocation by the fund manager will be according to market conditions to generate alpha. The Scheme may also initiate moderately higher risk credit risk trades, as compared to a liquid fund, after following a robust credit risk evaluation process.

The investment team of the AMC will, as a mitigation and risk control procedure, carry out rigorous credit evaluation of the issuer company proposed to be invested in. The credit evaluation will analyse the operating environment of the issuer, the sector analysis, business model, management, governance practices, quality of the financials, the past track record as well as the future prospects of the issuer and the financial health of the issuer.

Concept of Macaulay Duration

Macaulay duration measures the average time that would be taken to receive the cash flows from the invested instrument. It is the weighted average term to maturity of the cash flows from an instrument. The weight of each cash flow is determined by dividing the present value of the cash flow by the price. Macaulay duration is a measure of interest rate sensitivity of a fixed income instrument. Higher the Macaulay duration, higher would be the interest rate risk.

Macaulay duration of a portfolio is the asset weighted average of the Macaulay duration of individual bonds / securities in the portfolio. The table below illustrates the calculation of portfolio Macaulay duration.

Portfolio	Amount (crores)	% of portfolio (A)	Macaulay Duration (B)	Weighted Average (C)=(A*B)
Instrument 1	10	33.33%	2	0.67
Instrument 2	10	33.33%	3	1.00
Instrument 3	10	33.33%	4	1.33
Total	30	100%	Portfolio Macaulay Duration	3#

#Sum of column C

Macaulay Duration - Calculation

$$\text{Macaulay Duration} = \frac{\sum_{t=1}^n \frac{t * C}{(1+y)^t} + \frac{n * M}{(1+y)^n}}{\text{Current Bond Price}}$$

Where:

- t = respective time period
- C = periodic coupon payment
- y = periodic yield
- n = total number of periods
- M = maturity value
- Current Bond Price = Present value of cash flows

Key Assumptions

- Macaulay Duration measures interest rate risk accurately only for instruments where cash flows do not change with change in the yield (i.e. for plain vanilla instruments and not for instruments with embedded options).
- Macaulay Duration assumes yield curve is flat and so cash flows are reinvested at constant YTM rate over the instrument's period.
- Macaulay Duration does not consider the fact that duration does not remain constant and duration changes with level of YTM rates.

Example Calculation

Assume a bond paying 10% coupon, matures in three years. Yield to maturity is at 10%. The bond pays coupon annually, and pays the principal on the final payment. Given this, the following cash flows are expected over the next three years:

Period	Cash flow
Year 1	Rs.100
Year 2	Rs.100
Year 3	Rs.1100

With the periods and the cash flows known, a discount factor must be calculated for each period. This is calculated as $1 / (1 + r)^n$, where r is the interest rate and n is the period number in question. Thus the discount factors would be:

Period	Discount Factor Formula	Results
Year 1	$1 / (1 + 10\%)^1$	0.909
Year 2	$1 / (1 + 10\%)^2$	0.826
Year 3	$1 / (1 + 10\%)^3$	0.751

Next, multiply the period's cash flow by the period number and by its corresponding discount factor to find the present value of the cash flow:

Period	Weighted Present Value of Cash flow	Results
Year 1	$1 * \text{Rs.}100 * 0.909$	90.9
Year 2	$2 * \text{Rs.}100 * 0.826$	165.3
Year 3	$3 * \text{Rs.}1100 * 0.751$	2479.3
Sum		2735.5 (numerator)

Sum of PV Cash Flows = $100/(1 + 10\%)^1 + 100/(1 + 10\%)^2 + 1100/(1 + 10\%)^3 = \text{Rs.}1000$ (denominator)

Macaulay duration = Rs.2735.5 / Rs.1000 = 2.74

Please refer SID for detailed investment strategy.

In terms of the risk-return profile of the Scheme, the Scheme is positioned to generate long term income with accrual and capital appreciation. Hence the portfolio strategy will seek to generate return by balancing the maturity and credit profile to compensate for the risk as per the objectives of the Scheme.

The fund manager will seek to play out the anticipated movement in the interest rate by changing the maturity of the underlying portfolio, and also anticipated change in the term structure (flattening /steepening) of the yield curve in the portfolio construction after

analysing the macro-economic environment including future course of system liquidity, interest rates and inflation along with other considerations in the economy and markets. The fund manager will also seek to play the anticipated change in credit spreads based on historical spread analysis and also an analysis of the credit of the issuer. The fund manager will seek to generate alpha by investing in papers giving superior returns after in depth analysis of micro and macro factors.

The investment team of the AMC will, as a mitigation and risk control procedure, carry out rigorous credit evaluation of the issuer company proposed to be invested in. The credit evaluation will analyse the operating environment of the issuer, the sector analysis, business model, management, governance practices, quality of the financials, the past track record as well as the future prospects of the issuer and the financial health of the issuer.

Cash-Futures Arbitrage Strategy: The Cash- Futures strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread known as arbitrage return. This would result into a hedge where the fund have locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts or could even be closed earlier depending upon the opportunity in the market.

If the investor has provided an email address, the same will be registered in our records and will be treated as your consent to receive, Allotment confirmations, Consolidated Account Statement/Account Statement, annual report/ abridged summary and any statutory / other information as permitted via electronic mode /email. These documents shall be sent physically in case the Unit holder opts/ request for the same.

Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder shall promptly intimate the Mutual Fund about the same to enable the Mutual Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.

The AMC/Trustee reserve the right to send any communication in physical mode.

10. MODE OF PAYMENT OF REDEMPTION PROCEEDS - VIA DIRECT CREDIT / RTGS / NEFT

A. **Real Time Gross Settlement (RTGS)/ National Electronic Funds Transfer (NEFT)**

The AMC provides the facility of 'Real Time Gross Settlement (RTGS)' and 'National Electronic Funds Transfer (NEFT)' offered by Reserve Bank of India (RBI), which aims to provide credit of redemption and dividend payouts (if any) directly into the bank account of the Unit holder maintained with the banks (participating in the RTGS/ NEFT System).

NEFT is electronic fund transfer modes that operate on a deferred net settlement (DNS) basis which settles transactions in batches. Contrary to this, in RTGS, transactions are processed continuously throughout the RTGS business hours. The minimum amount to be remitted through RTGS is Rs. 2 lakhs. There is no upper ceiling for RTGS transactions. No minimum or maximum stipulation has been fixed for NEFT transactions.

Unit holders can check the list of banks participating in the RTGS / NEFT System from the RBI website i.e. www.rbi.org.in or contact any of our Investor Service Centres. However, in the event of the name of Unit holder's bank not appearing in the 'List of Banks participating in RTGS/ NEFT updated on RBI website www.rbi.org.in, from time to time, the instructions of the Unit holder for remittance of redemption/dividend (if any) proceeds via RTGS / NEFT System will be discontinued by Fund/ AMC without prior notice to the Unit holder and the payouts of redemption/dividend (if any) proceeds shall be effected by sending the Unit holder(s) a cheque / demand draft.

For more details on RTGS / NEFT or for frequently asked questions (FAQs) on RTGS / NEFT, Unit holders are advised to visit the RBI website www.rbi.org.in / Fund website www.mahindramutualfund.com.

B. Payment to NRI Investors:

Payment to NRI / FII Unit holders will be subject to the relevant laws / guidelines of the RBI as are applicable from time to time (also subject to deduction of tax at source as applicable).

In the case of NRIs:

- i. Credited to the NRI investor's NRO account, where the payment for the purchase of the Units redeemed was made out of funds held in NRO account; or
- ii. Remitted abroad or at the NRI investor's option, credited to his NRE / FCNR / NRO account, where the Units were purchased on repatriation basis and the payment for the purchase of Units redeemed was made by inward remittance through normal banking channels or out of funds held in NRE / FCNR account.

In the case of FIIs, the designated branch of the authorized dealer may allow remittance of net sale / maturity proceeds (after payment of taxes) or credit the amount to the Foreign Currency account or Non-resident Rupee account of the FII maintained in accordance with the approval granted to it by the RBI.

The Fund will not be liable for any delays or for any loss on account of any exchange fluctuations, while converting the rupee amount in foreign exchange in the case of transactions with NRIs / FIIs. The Fund may make other arrangements for effecting payment of redemption proceeds in future.

Unit holders are advised to opt for the NEFT / RTGS, as it helps in avoiding loss of redemption warrant in transit or fraudulent encashment. Please update your IFSC and MICR Code in order to get payouts via electronic mode in to your bank account.

The AMC / Fund shall not be held liable for any losses/ claims, etc. arising on account of processing the direct credit or credit via RTGS/ NEFT of redemption proceeds on the basis of Bank Account details as provided by the Unit holder in the Application Form.

However, if the Unit holders are not keen on availing of any of the said facilities and prefer receiving cheques/ demand drafts, Unit holders shall intimate the AMC/Registrar in writing indicating their preference. The AMC/Fund would then ensure that the payouts are effected by sending the Unit holders a cheque / demand draft. In case of unforeseen circumstances, the AMC/Fund reserves the right to issue a cheque / demand draft.

Any charges levied by the investor's bank for receiving payment through electronic mode / outstation cheques / demand drafts will be borne by the investor. The Mutual Fund / AMC will not accept any request for refund of such bank charges.

Please ensure to furnish the Bank Account details under Section 7.

C. Mode of Payment for Unit holders holding Units in Demat form

Investors will receive their redemption proceeds directly into their bank accounts linked to the demat accounts.

11. SMS Alerts

This facility enables the Unit holder to receive SMS confirmations for purchase, redemption or switch, dividend declaration details and other alerts.

12. UNIT HOLDING OPTION

Applicants under the Scheme will have an option to hold the Units either in physical form (i.e. account statement) or in dematerialized form.

Investors desiring to get allotment of units in demat form must have a beneficiary account with a Depository Participant (DP) of the Depositories i.e. National Securities Depositories Limited (NSDL) / Central Depository Services Limited (CDSL).

If PAN is not mentioned by applicants, the application is liable to be rejected. Investors may attach a copy of the Client Master Form/ DP statement showing active demat account details for verification. Names, mode of holding, PAN details, etc. of the Investor will be verified against the Depository data. The units will be credited to the beneficiary (demat) account only after successful verification with the depository records and realization of payment. In case the demat details mentioned in the application are incomplete/incorrect or do not match with the depository data, the application shall be treated as invalid for processing under demat mode and therefore may be considered for processing in non-demat form i.e. in physical mode if the application is otherwise valid.

For units held in demat mode, details such as address for correspondence, pay-out bank details, nomination etc. will be applicable as available in the depositories' records. For effecting any subsequent changes to such information, Investors should approach their DP. Holding/ transacting of units held in demat form shall be in accordance with the procedures/ requirements laid down by the Depositories, viz. NSDL/ CDSL in accordance with the provisions under the Depositories Act, 1996 and the Regulations thereunder.

Investors should opt for the nomination facility to avoid hassles and inconveniences in case of unforeseen events in future. Through this facility the AMC is not in any way attempting to grant any rights other than those granted by law to the nominee(s). A nomination in respect of the Units does not create an interest in the property after the death of the Unit holder. The nominee(s) shall receive the Units only as an agent and trustee for the legal heirs or legatees of the deceased Unit holder as the case may be.

Minor(s) can be nominated and in such cases, the name, address and signature of the parent/ legal guardian representing such minor nominee(s) shall be provided by the Unit holder.

Only the following categories of Indian Residents can be nominated: (a) individuals (b) minors through parent/ legal guardian (c) religious and charitable trusts and (d) Central Government, State Government, a local authority or any person designated by virtue of his office.

The terms and conditions for registration of nominee(s) are as under-

- i. Nomination by a Unit holder shall be applicable for all the investments in all schemes held in a particular folio.
- ii. In case a folio has joint holders, all joint holders should sign the request for nomination/ cancellation of nomination, even if the mode of holding is 'either or survivor'.

- iv. Nomination shall not be allowed in a folio held on behalf of a minor Unit holder.
- v. Nomination shall be mandatory for all new singly

held folios of individual investors. Investors who do not wish to nominate are required to sign a declaration separately, confirming their non-intention to nominate. In case nomination/non-intention to nominate is not provided by sole holder, the application is liable to be rejected.

- vi. Nomination can be made for maximum number of three nominees. In case of multiple nominees, the percentage of allocation/share in whole numbers and without decimals in favour of each of the nominees should be indicated against the name of the nominees. Such allocation/ share should total to 100 percent. In the event of the Unit holder(s) fail to indicate the percentage of allocation/share for each of the nominees, the Fund/ AMC, by invoking default option shall settle the claim equally amongst all the nominees.
- vii. In case of multiple nominees, on the death of one or more nominee, the transmission of units shall be made in favour of the remaining nominee(s).
- viii. Cancellation of nomination can be made only by those Unit holder(s) who hold Units on their own behalf either singly or jointly and who made the original nomination. On cancellation of nomination, the nomination shall stand rescinded and the Fund/ AMC shall not be under any obligation to transmit the Units in favour of the nominee(s).
- ix. In case of investors opting to hold the Units in demat form, the nomination details provided by the investor to the depository participant will be applicable.
